Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Amendment

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

1. Claims 1-11 are rejected under 35 U.S.C. 102(e) as being anticipated by Wehmeyer (6169543).

As for claims 1 and 7, Wehmeyer discloses:

A reservation information setting apparatus, comprising:

schedule table forming means for controlling the display of a schedule table that includes calendar information – Fig. 6; col. 16, lines 4-16, col. 11, lines 37-41, col. 12, lines 49-51;

date selection accepting means for accepting a selection input of a target date in said schedule table – col. 14, lines 10-15;

schedule information accepting means for accepting an input of user schedule information for said target date – Fig. 5A; col. 12, lines 59-63, col. 13, lines 42-51, col. 14, lines 4-15, col. 16, lines 50-65;

reservation information accepting means for accepting an input of reservation information for a broadcast program on said target date – col. 12, lines 13-17; and said user schedule information representative of a number of events pertaining to a user which are not related to broadcast programs – (i.e. personalized calendar function such as a reminder to “Call Mom”; col. 12, lines 49-51, lines 59-60, col. 13, lines 41-50, col. 16, lines 50-65).

As for claims 2 and 8, Wehmeyer discloses:

display instruction accepting means for accepting an input of an instruction to display a broadcast program guide corresponding to said target date if said selection input of said target date is accepted by said date selection accepting means (The schedule of the broadcast activity corresponding to the date selected by the subscriber is displayed on the displayed screen – i.e. 7/22/97 in Fig. 6); and

broadcast program guide forming means for forming a signal for displaying said broadcast program guide if said input of said instruction to display said broadcast program guide is accepted by said display instruction accepting means – col. 5, lines 31-44, lines 57-67;

wherein said reservation information accepting means accepts said input of said reservation information through said broadcast program guide – col. 12, lines 12-17.

As for claims 3 and 9, Wehmeyer discloses wherein said displayed schedule table includes said user schedule information for said target date and said reservation

Art Unit: 2611

information for said broadcast program on said target date – col. 14, lines 4-15, col. 12, lines 13-17.

As for claims 4 and 10, Wehmeyer discloses wherein said broadcast program guide is based on program guide information included in a broadcast signal – col. 4, lines 38-42.

Claim 5 contains limitations of claim 1 and is analyzed as previously discussed with respect to that claim. Claim 5 additionally calls for the following:

said reservation information including said target date and a broadcast time on said target date – col. 11, lines 11-17;

reservation information storing means for storing said reservation information for said broadcast program on said target date – col. 11, lines 11-17; and

viewing control means for controlling the display of said broadcast program upon arrival of said target date and said broadcast time in said stored reservation information – col. 12, lines 11-17.

Claim 6 contains limitations of claim 5 and is analyzed as previously discussed with respect to that claim. Claim 6 additionally calls for the following:

information signal storing means (electronic host device – set top box) for storing an information signal – col. 12, lines 12-18; and

Art Unit: 2611

recording control means for controlling the recording of said broadcast program in said information signal storing means upon arrival of said target date and said broadcast time in said stored reservation information – col. 12, lines 11-17.

Claim 11 contains limitations of claim 5 and is analyzed as previously discussed with respect to that claim.

As for claim 12, Wehmeyer discloses:

storing the reservation information for the broadcast program on the target date, the reservation information including the target date and a broadcast time on the target date – col. 12, lines 11-17; and

recording the broadcast program upon arrival of the target date and the broadcast time in the stored reservation information – col. 12, lines 11-17.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 13-16 are rejected under 35 U.S.C. 103(a) as being unpatentable over Wehmeyer in view of Shteyn (09/802,618).

As for claims 13-16, Wehmeyer discloses setting personal reminders (such as "Call Mom") in an EPG system.

Wehmeyer fails to specifically disclose wherein the number of events includes a meal engagement and/or attendance at a concert.

In an analogous art, Shteyn discloses wherein the user schedules personal activities in advance such as dinner or attending a concert for the advantage of being reminded of future appointments – paragraph [0014].

It would have been obvious to one of ordinary skill in the art at the time of applicant's invention to modify Wehmeyer's invention to include wherein the number of events includes a meal engagement and/or attendance at a concert, as taught by Shteyn, for the advantage of being reminded of future appointments.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

Art Unit: 2611

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
